

Dear SWLC and SAHO families and friends,

The health and safety of our children and their families, as well as our staff and our community is of utmost importance.

Thus, after much consideration, we have decided that it is in the best interest of all to close as of 5:30pm on Friday, March 20th. At this time it is our intent to close for the recommended two weeks, however this may change as we continue to monitor the COVID-19 outbreak.

For those families that may need care during this time, we do have some staff members that are interested in providing care on their own. If interested, we can pass along names for you to contact them directly. Small Wonders will hold no liability or financial interest in this arrangement. As stated in our prior letter, families will not be charged tuition when we are closed.

All families should take home personal items to be laundered and cleaned.

If during this time, you are in need of something, please message us or leave a phone message. We will be monitoring our Facebook page and answering machine.

If you have any questions or concerns, please give us a call at 608-868-5288.

We want everyone to remain healthy and safe, please practice good hygiene. Enjoy your time with your children, be creative. Staying at home, doesn't mean you can't go outside and play in the yard or build a fort using blankets and chairs! Staying at home can be fun and having fun can help alleviate stress. ☺

Thank you and stay well!

Beth, Terri, and Julia
